

Air-Lec Industries, LLC

Pneumatic Door Operators

Air-Lec products are made by craftsmen combining old world wisdom and new world technology.

Our manufacturing processes have evolved for nearly 100 years while retaining what is good and right with our commitment to quality. Air-Lec has employed pneumatics since our inception. Combined with quality materials and craftsmanship our customers have enjoyed decades of trouble-free, cost-effective operation.

Air-Lec pneumatic door operators are used in many different facilities of all sizes, including:

- Manufacturing facilities
- Food processing plants
- Animal enclosures
- Cattle auction houses
- Assembly lines
- Machine shops
- Cold storage
- Explosive environments
- Amusement parks
- Wet, dusty, non-standard environments

Air-Lec is backed by quality craftsmanship and solid company values. Satisfied customers include Kimberly-Clark, Disney, Tyson and Kraft.

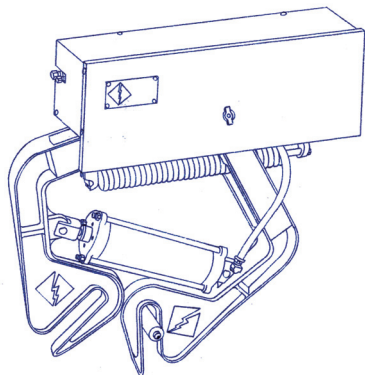

Producing professional grade door operators for nearly a century.

***Old world wisdom meets modern technology.
Safe. Fast. Dependable.***

Made in America.

INERTIA DOOR OPERATOR

- Compact, two-armed operator using one arm to quickly slide large doors, then gently but firmly slow that motion with the other arm
- Commonly used in vehicle traffic doors and anywhere with a large sliding door
- Available for sliding doors from 5-30 feet wide, and up to 3000 lbs.

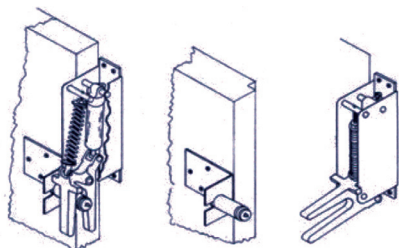

OVER-CENTER DOOR OPERATOR

- A sliding door operator which is widely used in both trained traffic and fire door applications
- Available for sliding doors up to 6 feet wide with a maximum weight of 1,200 lbs and bi-parting doors for openings up to 12 feet wide

SWING-IN DOOR OPERATOR

- Adaptable to almost any swinging or folding door application
- Most frequently used in cold storage applications such as large freezer doors
- Ideal for 3- to 6-foot wide door openings
- Two sizes available for doors over and under 500 lbs

AIR-SEAL FOR SWINGING DOORS

- In conjunction with the Swing In door operator, the Air Seal operator provides a tight seal for environmental control doors
- Ideal for old, warped, wooden doors
